## Safeguarding Adults Board

Solihull Safeguarding Adults Board [SSAB or the Board] was established in 2008. It is a multi-agency partnership comprising of statutory, independent and voluntary sector organisations, which have a stakeholder interest in safeguarding adults. It is now established under section 43 of the Care Act 2014.

Solihull Safeguarding Adults Board has adopted and will use the principles as set out in the Government's Policy Adult Safeguarding in May 2011 and reissued in 2013, when they identified the following equal principles they expect local authorities, housing, health, the police and other agencies to follow and use for monitoring safeguarding arrangements:

- **Empowerment** - Presumption of person led decisions and informed consent. *"I am asked what I want as the outcomes from the safeguarding process and these directly inform what happens"*.
- **Prevention** - It is better to take action before harm occurs. *"I receive clear and simple information about what abuse is, how to recognise the signs and what I can do to seek help"*.
- **Protection** - Support and representation for those in greatest need. *"I get help and support to report abuse. I get help to take part in the safeguarding process to the extent to which I want and to which I am able"*
- **Proportionality** – Proportionate and least intrusive response appropriate to the risk presented. *"I am sure that the professionals will work for my best interests, as I see them and they will only get involved as much as needed."*
- **Partnership** - Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse. *"I know that staff treat any personal and sensitive information in confidence, only sharing what is helpful and necessary. I am confident that professionals will work together to get the best result for me"*.
- **Accountability** - Accountability and transparency in delivering safeguarding. *"I understand the role of everyone involved in my life"*.

## **Key Safeguarding Adult Board duties:**

The Care Act 2014 places three core duties on SAB's. They are:-

### **Strategic Plan**

At the end of each financial year, the Board will publish a Strategic Plan which sets out how it will protect and help adults in its area and what actions each member of the SAB will take to deliver the plan better. When preparing the Strategic Plan, we will involve the community and consult with Healthwatch Solihull.

### **Annual Report**

Also at the end of each financial year the Board will publish an Annual Report detailing the work of the Board throughout the year. This report describes national initiatives on adult safeguarding as well as the work that has been undertaken locally to protect adults with care and support needs in Solihull. The purpose of the report is to share information on our achievements and future plans with our partners, service users and other Solihull residents. We are very proud of our achievements and we are committed to continuing our work to deliver excellent adult safeguarding services in Solihull.

### **Safeguarding Adult Reviews**

Solihull Safeguarding Adults Board is required to arrange Safeguarding Adults Reviews where there is potential for multi-agency learning as to how professionals and organisations have worked together to safeguard one or more adult with care and support needs.

The overall purpose of a Safeguarding Adults Review is to promote learning and improve practice. They are a multi-agency process that considers whether or not serious harm experienced by an adult or group of adults with care and support needs, could have been predicted or prevented.
